

Scapa 9064

Kraft Paper Packaging Adhesive Tape

DESCRIPTION

Scapa 9064 is a kraft paper coated with a rubber resin adhesive system, with 100 μ total thickness and recommended for general bundling and packaging applications.

APPLICATIONS

- Bag sealing.
- Box sealing.
- Bundling.
- Suitable for a variety of medium to light domestic packaging and sealing applications at home or in the office.

PRODUCT BENEFITS

- Easy unwind.
- Very high tack.
- Solvent free.
- Printable with aqueous tints.
- Applicable by hand or with Scapa HD209 or HD210 dispensers.
- Continuous temperature resistance: +50°C.

TECHNICAL PROPERTIES

| Technical Property | Nominal Value | Unit | Test Method |
|---------------------|---------------|------|-------------|
| Adhesion to Steel | 5.5 | N/cm | AFERA 4001 |
| Elongation at Break | 7 | % | AFERA 4005 |
| Tensile Strength | 45.0 | N/cm | AFERA 4004 |
| Total Thickness | 0.100 | N/cm | AFERA 4006 |

STANDARD PRESENTATIONS

- Colours: Kraft
- Core: 76mm Scapa branded cardboard core
- Packaging: Concertina
- Roll Length: 50 metres
- Roll Width: 38, 50 and 75mm

RECOMMENDATIONS

The rolls should be stored flat on their cut edges in the original packaging. The product must be protected from dust, heat, moisture, direct sunlight and solvent fumes. Storage temperature between +10°C and +30°C. Under these conditions, the storage life of the tape in a temperate climate will be at least one year.

Surfaces should be clean, dry and free of dust, grease, oil or other contaminants.
